KSSS Sustainability

The world's oceans and especially the Baltic Sea are not feeling well. All sailors, officials and visitors to the sea must step forward and protect them. As a regatta organizer KSSS are committed to limit the negative environmental impact of the regatta and expect everyone involved to follow the guidelines below.

- No marine waste is ok. Keep the trash safe on board so it does not blow in the water. All waste should be disposed in containers ashore and if you find some waste in, or close to, the water please pick it up.
- Bring your own personal reusable water bottle. If you use sports drinks, bring along a powdered sports drink mix to use in your reusable water bottle.
- Please refrain from using detergents that can adversely affect water quality.
- Reduce fuel consumption by turning off your engine when it is safe to do so, anchoring instead of idle, and slowing down the speed.
- Fill fuel tanks slowly and use absorbent pads to trap drops and spills. Do not overfill the fuel tank. Try to leave the tank 10% empty so that the fuel can expand when the fuel is heated. Make sure your engine is well maintained to avoid oil or fuel leakage.
