

Weather forecast Gotland runt 2021

Forecast valid

2021-07-04 11 AM – 6 PM

Stockholm-Sandhamn

E-SE 1-4 m/s. Good visibility and no risk of thunder.

Forecast valid

2021-07-04 6 PM – 2021-07-06 12 AM

Sandhamn-Gotland

Sunday evening NE 2-6 m/s, but southeast of Gotland 5-9 m/s. During Sunday evening west of Gotland temporarily veering to N. From Monday morning E-NE, 3-7 m/s, west of Gotland varying 1-5 m/s. Monday afternoon northeast of Gotland increasing and backing to SE, 5-8 m/s. Monday evening east of Gotland decreasing to 2-4 m/s and varying in direction.

Mostly good visibility during the period. On Monday, especially from the afternoon, showers may occur near Gotland, but the risk of thunder is at the moment negligible.

Best regards
